The China Muil. HONGKONG, MONDAY, FEBRUARY 14, 1898. In the deckyards at Portsmouth so long ago as the 8th of Jan. there were rumours in circulation that a flying squadron of British ships would be formed for service in Chinese waters. An investigation at the time proved the report to be unfounded, but the news of the despatch of the Vic Noon, -Meeting of Shareholders of the torious and Barffeur battleships and the Gibraltar cruiser, with the stoppage of the -Limited, at the Company's Office No. Orlando at Singapore and the Edgar Hongkong, would seem to indicate that the British Government has decided, after all in favour of a flying squadron and a substantial strengthening of the fleet in Chinese waters, in order to enable Sir Claude Macdonald to play a stronger game at Peking. These augmentations of the fleet make Britain more than over independent of Japan as a possible ally and restores. The British naval predominance, which had been threatened by the Russian, French and German naval reinforcements. Telegrams The N. Y. R. s. Tokto Mara left. received by the American mail show that the British Cabinet is fully alive to the. importance of British commercial interests in China. Addressing his constituents at Manchester on the 10th of January, Mr. Manchester on the 10th of January, Mr here on the 18th Feb. Arthur J. Balfour reiterated what has The N. P. Co. a. s. Mogul arrived at been said by The Times and some of his colleagues in the Cabinet, that Bri tish interests in China are commercia and not territorial. Except as the base for possible warlike operations the ter ritory would be a disadvantage, because it would involve responsibility and expense in money and men. He dilated upon the fact that the extent of our trade with Chipa gives us a special claim to prevent her pursuing a policy that would discourage trade and added : But the deepest traditions of our policy preclude us from using our trading privileges as a weapon to exclude our rivals. If we ask for freedom of trade it is not for England alone, but for the whole world. There was no objection, said Mr. Balfour, in conclusion, to Russia having an ice-free port, provided England was not excluded; but the Government would do its utmost to prevent China yielding to foreign pressure to make regulations adverse to Great Britain, or 'any improbable, but possible, attempt to dot the coast of China with foreign stations by protectionist countries who would raise customs or other barriers to our trade. The burden of the whole declaration was that England's policy

But he wished the list to be seen only by His Lordship,

Favoured by fine weather and upon the whole a remarkable exemption from training mishaps, the Hongkong races commence to-morrow under the happiest auspices. AN UNLUCKY WARSHIP.

THE ALGERINE IN DOCK. The Shanghai Duly News of the 10th inst. says ;- Captain Domville of the Algerine left yesterday on board the storeship Humber for Hongkong en route for

The Shanghai Mercury of the 10th inst. reports that the damage sustained by the Algerine in recent accidents are more serious than at first supposed. Her starboard bilge keel has completely vanished, a long line of splintered woodwork, with projecting rivets and jagged and torn edges of copper sheathing, marking where it once was. Her false keel has also disappeared, only some four or five feet of it just abaft the forefoot remaining. Her port bilge keel has also been wrenched out of shape, while all the copper sheathing amidships is stripped off and twisted about all over the place. The repairs must necessarily occupy weeks, if not months, and will cost at east £3.000.

It appears that after leaving here on Jan. 23rd, and whilst nearing Tinghai at a little after S a.m. the following morning, she suddenly went ashere. The boats were at once swung out, athe watertight doors cloud and ammunition hoisted up, and after bumping and banging about for about three quartors of an hour she managed to get off and proceeded on her way to Tinghai. On her arrival there a Court of Inquiry was held at once, followed by a Court Martial at which both Captain and Navigating Lieutenant were reprimended. The Algerine was built at Devenports and this, her first commission, has proved terribly unfortunate so far. She commissioned on Feb 11th, 1897, or exactly one year to-morrow. When she started for the Far East she experienced a very had time of it, taking eight days to make Gibraltar from Plymouth, losing one boat and smashing some others. Arrived at Malta the missing boat was replaced by the one just smashed by the bows of the Ningpo junk. Her troubles commenced out here with the sad suicide of one of her officers. Then on November 3rd she got so far aground on the Shanghai flats that at low tide her bows were only in three feet of water, and remained practically high and dry for some hours. Next came her two recent accidents, so that she can hardly be called a fortunate ship. A trim little craft. and the rest of the fleet, except Scabreeze, speedy, of light draught and just the thing were not far behind. A beat up to the for these waters, it will be a pity if her ship's company do not discover the Jonah in their midst and drop him comfortably brought the boats in the following order to overboard as soon as found.

THE MURDER OF THE GERMAN SENTRY AT CHIMO.

We translate from the Der Ostavialischer Lloyd the following official account of the scilor from S.M.S. Kaiser by a Chinaman at Chimo :- Already in January the town of Chimo was occupied by a detachment of the fleet to which belonged the sailor Schulze. On the night of the 23rd and 24th of January he was standing centry at the west gate of the city, a watch commanded by a petty officer being in the guard-room over the gate, and another sentry near by on the wall. Schulzo was assassinated shortly before 2 a.m. The sentry on the wall and the watch in the guard. room were alarmed by a shot and, hastening down, found Schulze lying on the ground with his discharged gun near him but no sign of the murderer. He died without having disclosed anything concerning the attack to which he had fallen a viotim. The body showed two deep gaping gashes on the left side of the head and neck, which, from their position; could only have been inflicted from behind, the artery of the nock being severed, so that double must have quickly ensued from less of blood,"

made responsible for the arrest and judge ment of the murderer and succeeded in arresting him after two days. He was a man owning a small shop for the sale of articles made of cow-horn in the violnity of the gate, and confessed his crima before the Chinese magistrate, giving an his motive the fact that his shop had been broken into and robbed in the night establishment, and a still larger number a fact which he discovered upon examining his stock at night. Upon being led to the scene of the murder, he repeated his conber are lying on the bank of the Sungari fession in the presence of German officers. The knife with which he committed the murder was found in his possession still out povered with blood, subsequently recognised as human. The Chinese magia. trate at once sentenced the murderer to death, but upon the head man of the district avowing that he was not in a position to confirm the contence, the Governor at Chinantu, to whom the occurrence had been telegraphed, referred the matter to Pekinge where, however, the Government refused the authorisation, taking, in an utterly in-

territory round Kiaochou Bay. The conclusion of the Court-martial was unanimously in favour of the death sentence, and the murderer was sentenced to be shot as prescribed by the law, when the head man came and begged that the criminal should be handed over to him, to be beheaded according to Chinese custom, which was accordingly done publicly in China on the morning of the 2nd of February. The head of the murderer was then hung on the gate of the town,-N.O. Daily News.

THIS paper is now issued every day. The subscription is fixed at Five Dollars per annum delivered in Hongkong, or Eleven Dollars Forty Cents including postage-to-Coast-ports. It is the first Chinese Newspaper ever

The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary place it on a business and legal footing. The projectors, basing their estimates apon the most reliable information from the various Ports in China and Japan from Australia, California, Singapore, Pe nang, Saigon, and other places frequented be the Chinese,—consider themselves justified in guaranteeing a large and over-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, bu progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. From all sub-tropical planting settlements we have had cordial approval of the publication and an encouraging measure of support. No planter should be without it.

As a medium for English, American and Australian ADVERTISEMENTS of good, suitable for the tropics, India as well as Ceylon, the Straits Settlements, Javas and West Indies or connected with agriculture the Tropical Agriculturist stands unrivalled, the work being constantly in The Vade-mecum of the Traveller and American agriculturists. Being a through the Gorges of the Great River | Monthly Periodical, the Tropical Agriculturist lies on the table and is very often referred to during each month, a fact which advertisers will know how to appreciate. Mr W. T. Thiselton Dyer, F.L.S., Assistant Director of Kew Gardens, writing of

the T. A., refers to it as 'an astonish repertory of everything relating to the economic botany of the East. For the sale of plants, seeds, machinery, implements, &c., used in tropical (tea, sugar, fibres, &c.) agriculture, no better advertising medium exists.
